

**WR 9/25/07**

Kim, I wanted to give you more.

Nelson hood from almost 10 years ago, wrote a letter on Keelynet about an anti- gravity pyramid.

Kim, the inventor of the anti-gravity pyramid is buying a lake shore home just a few miles down the road.

My brother knows the man who is selling the property to him.

That is why I was able to drive past the 6 foot anti-gravity pyramid on the way to his friends house.

We need to talk to Nelson Hood about the anti-gravity pyramid and mineral extractor.

I tried his Keely net E-mail address and got an immediate "NON DELIVERY MESSAGE"!!!

The best I can do is contact Jerry Decker, since this was the "ONLY" reference to the anti-gravity pyramid on Google.

Kim, what we need is to find a way to meet this man on an even footing. he is patenting his anti-gravity device and has already been visited by celebrities...one of whom was R.P...(read between the lines)

Kim I saw it! It was right in front of me, but it was hot day and the land owner wanted to talk to my father and brother inside his lake house.

I have no idea who this man is! Nelson Hood used to be his friend...but where is Nelson Hood now???

Kim the anti-gravity pyramid is only a few miles away, but it is tied up in a real estate deal and I would incur the unholy wrath of my father and brother if anything happens to stop the deal.

I have no right at this time to show you a photograph or a drawing...I SIMPLY HAVE NO PERMISSION!!!!

Kim, as soon as you can read the 1999 article on Keelynet titled "PYRAMID ANECDOTES" DOUBLE HELIX PYRAMID, HARDY 1

Kim this is very important to us my friend, but we simply have no "LEGAL" access to this mans home or his invention.

He has been showing pictures at my fathers local coffee shop and been mocked.

I CAN NOT BELIEVE THE GOOD FORTUNE OF SUCH A RESEARCHER COMING SO CLOSE TO MY OWN HOME!!!

Kim, read the "PYRAMID ANECDOTES" from Nelson Hood dated 1999 Keelynet!

The inventor is seeking to re-locate on the Grand lake shore line only a few miles from where I live "WOW"

The land is expensive so I am not sure how it is going with my brother and father's friend who is selling the anti-gravity pyramid and mineral extractor his lake front property. I was at his house Saturday. We drove only feet from the anti-gravity pyramid! No, I did not get to look at it up close.

I am sorry I can not tell you more. This is big and is right under my nose.

It is also on private property and once it is sold to this inventor, I will never be allowed access again without his permission.

Talk about convergent phenomena, I have always wanted to live near a fellow Anti-gravity researcher, but as fate would have it, this man is being visited by celebrities and I am not one. It will probably be permanently off limits to me, such has been my luck over the years.

KIM, IF NELSON HOOD (do not have his current E-mail address or phone number) WOULD GIVE YOU AN INTRODUCTION TO THIS ANTI-GRAVITY PYRAMID DEVELOPER, IT WOULD BE A VERY WORTHWHILE THING FOR YOU TO COME UP HERE AND SEE HIS DEVICE IN PERSON. Kim I am not R.P. , I have no large bank account or celebrity to use in my or your favor. You need to find Nelson Hood!!! He may be our only way of meeting this inventor. All I have done so far is seen his pyramid and heard from my father's friend about how its 4,000 pound weight was levitated in the air. He also extracts metals with it, I am not like you Kim, I always rub people the wrong way. Perhaps you can gain a personal audience with this inventor when I can not. I feel finding the current whereabouts of Nelson Hood from 10 years ago on keelynet is key here. The machine was only 20 feet away! The inventor is practically right under our noses. PLEASE KIM TRY TO CONTACT YOUR GRAPE VINE AND MEET UP WITH EITHER THIS INVENTOR (NAME NOT GIVEN) OR NELSON HOOD AS SOON AS POSSIBLE. He may have invented the very machine you seek to power your aircraft. It is nuts and bolts and far larger than any prototypes I have ever constructed. I really wish this man was my friend... What misery to have something I have quested for a lifetime so close and at the same time so far away!!!

Your friend Mr. Bailey.
